MANY THEMES TO CHOOSE FROM

PRODUCT FEATURES

- LumaMagic™ technology* puts the customer's image within the foreground and background of their chosen graphical theme, offering a unique real-time user experience as well as a memorable take away from their photo booth session.
- LumaMotion™ technology* captures video of customers in their "virtual reality" scene, letting them re-live and share their moviemaking experience with friends online.
- The in-line camera system creates higher quality photos by allowing customers to see themselves live inside their selected graphic theme while they simultaneously look directly into the camera.
- Each graphic theme allows user to pose within 4 images, then print one 6"x8" or two 4"x6" dye sublimation photos (of their favorite poses).
- Highly interactive user interface includes themed music and "strike a pose" prompts.
- Easily access and share photos online via MallPhotoBooth.com
